MANUFACTURER OF  
**HIGH QUALITY**  
COFFEE ROASTERS

**GIESEN**  
*coffee-roasters*

# THE GIESEN STORY

With complete devotion, we aim to produce high quality coffee roasters that offer you the possibility to roast beans with more control than any other coffee roaster. By implementing new technology and focusing on developments in the industry, our team take craftsmanship to the next level.

## W140A

### Completely automatic roasting process

#### » CONTROL PANEL

Implemented in the panel are two screens, one for the roast profiling system and one to control the coffee roaster.

#### » CAPACITY

The coffee beans will be roasted up to 140 kg per batch, which is twice as much as the W60A.

#### » REMOTE SUPPORT ROUTER

Get faster and easier support and updates with our remote support router.

400 V - 50 Hz, 32A + 16A,  
3-phase + N and Earth

**Exhaust**  
250 mm + 300 mm

**Certificates**  
CE

### SIZE MATTERS

The Giesen W140A is a completely automated coffee roaster. The Green Coffee Conveyor with weighing cells weighs your beans and transports them to the machine. The coffee beans will be roasted up to 140 kg per batch, which is more than twice as much as the W60A. The roast profile is completely

adjustable with drum speed control and airflow control. The low stationary burner makes it possible to control the temperature very accurately. The optional pellet press will press your coffee chaff into a easy to dispose disk.

### WHAT OUR CLIENTS SAY ABOUT OUR ROASTERS:

"Build quality and technology to control every aspect of the machine, which is key to every roast we do." - Brew Me Roastery

### INCLUDED:

ROAST PROFILE TOUCH
